CORPORATE HIGHLIGHTS

Future of the Company

- On 22 May 2015, Aseana announced proposals regarding the future of the Company to enable a realisation of the Company's assets in a controlled, orderly and timely manner, with the objective of achieving a balance between periodically returning cash to shareholders and maximising the realisation value of the Company's investments.
- At the Annual General Meeting ("AGM") and Extraordinary General Meeting ("EGM") held in June 2015, shareholders approved the proposals for the continuation of Aseana for the next three years to June 2018, adoption of a new divestment/investment policy, and intention to make capital distributions of not less than US\$20.0 million in 2015, subject to lenders' consents, a Directors' statement of solvency and any necessary shareholder authorities.
- On 27 August 2015, Aseana held a further EGM, at which shareholders approved amendments to the memorandum and articles of association of the company and its capital structure to facilitate a return of capital to shareholders.

First distribution update

- Applications to make the first distribution were submitted to the Company's lenders at the end of August 2015. However, consents from two lenders remain outstanding. The market conditions in Malaysia caused by the recent political events in the country, fall in oil price and the depreciation of the Malaysian Ringgit have caused concerns for a couple of the Company's lenders, who have therefore become cautious about the Company returning capital to Shareholders.
- The Company continues to liaise with its lenders in respect of the first intended capital distribution of US\$10.0 million. Following completion of the disposal of Aloft hotel, the Manager and the Company will engage further with the lenders to seek consents for the first capital distribution. Consideration will then be given to make further capital distributions depending on the availability of surplus cash within the Company and the receipt of consents from the lenders. A further announcement will be made when there is clarity on the progress and timeline of obtaining these consents.

FINANCIAL HIGHLIGHTS: STATEMENT OF COMPREHENSIVE INCOME (2)

Notes:

1. Revenue was attributed to the sales of completed units at SENI Mont' Kiara and Tiffani. No revenue was recognised for The RuMa, in accordance with IFRIC 15.
2. Included in the Other Income is revenue generated by four operating assets of US\$6.67 million (2015 : US\$6.47 million). The operating assets are Four Points by Sheraton Sandakan Hotel ("FPSS"), Harbour Mall Sandakan ("HMS"), Aloft Kuala Lumpur Sentral Hotel ("Aloft") and City International Hospital ("CIH").

4. Included in the net finance cost is interest on Medium Term Notes ("MTN") and loans amounting to approximately US\$2.58 million (2015: US\$2.72 million) relating to the four operating assets.
5. Net loss for the period was mainly attributed to lower revenue, operating losses and financing costs largely contributed by CIH of US\$1.99 million as well as FPSS and HMS totalling US\$1.15 million.
6. The profit arising from foreign currency translation for foreign operations was due to the strengthening of the Ringgit against the US Dollar during the period.
7. Average exchange rate for period ended 31 March 2016 – US\$1: RM4.0866 (31 March 2015 – US\$1: RM3.6456).

The Group has adopted IFRIC 15 – Agreements for the Construction of Real Estate, which prescribes that revenue be recognised only when the properties are completed and occupancy permits are issued. This resulted in certain costs being recognised ahead of revenue during the year.

RNAV of Company = Cash at Company + (Net Asset Value of Projects OR Market Value of Projects – Assumed Taxes) + Net Other Assets & Liabilities

- Aseana has valued each project using the following valuation basis for the RNAV calculation:
