OVERVIEW OF MALAYSIA AND VIETNAM

Malaysia and Vietnam share common characteristics that will continue to drive the growth of real estate in coming years

Malaysia

- 2012 GDP Growth: 5.6%
- Population (2011): 28.86 million
- 65% of population between age 15 - 64
- GDP per capita (2011): US\$9,977
- 2012 FDI: US\$9.52 bn
- Established Housing Development Act and Strata Titles Act
- RPGT is exempted for both individuals and corporations if holding period is longer than 5 years
- Removal of FIC approval for all property transactions valued below RM20m
- Mortgages up to 95% of property value, up to 35 years
- Introduction of Economic Transformation Programme which aims to create a high income economy by year 2020

Vietnam

- 2012 GDP Growth: 5.03%
- Population (2011): 87.84 million
- 71% of population between age 15 - 64
- GDP per capita (2011): US\$1,407
- 2012 FDI: US\$16.30 bn
- Land Law and related regulations enacted in July 2004
- Regulation allowing foreigners with work permit, Viet Keus (overseas Vietnamese) and expats to purchase property
- Mortgages up to 70% of property value, over 15 years
- Preferential home loans of VND30 trillion (US\$1.43 billion) for low income earners
- Recent Government efforts to restructure banking system including setting up of VAMC

Four common characteristics of Malaysia and Vietnam:

1. **Increasing standard of living and urbanisation** driven by a burgeoning young and middle class population
2. **Pro-active Government role** in encouraging private sector participation in real estate development, and promoting land and property ownership
3. **Improving availability of mortgages** to encourage property ownership
4. **Favoured FDI destination** driving demand for commercial properties

FINANCIAL HIGHLIGHTS: STATEMENT OF COMPREHENSIVE INCOME (2)

Notes:

1. Revenue was mainly attributable to sales of completed units at SENI Mont' Kiara from the period January 2013 to June 2013. No revenue was recognised for The RuMa, in accordance with IFRIC 15.
2. Operating Expenses include the management fees, administrative expenses and marketing fees.
3. The increase in finance expense was mainly due to interest charged on the MTN issued upon commencement of Harbour Mall Sandakan, Four Points by Sheraton Sandakan Hotel and Aloft Kuala Lumpur Sentral Hotel from the period January 2013 to June 2013.
4. Net loss for period June 2013 was largely due to operating losses of Four Points by Sheraton Sandakan Hotel, Harbour Mall Sandakan, together with the pre-opening expenses and and operating losses of Aloft Kuala Lumpur Sentral Hotel of US\$5.96 million. The results have also included a share of the losses of associate of US\$3.03 million attributed to the financing charges incurred in relation to the Sentral office towers following the completion of the towers.

The Group adopted IFRIC 15 – Agreements for the Construction of Real Estate, which prescribes that revenue be recognised only when the properties are completed and occupancy permits are issued. This resulted in certain costs being recognised ahead of revenue during the year.

VALUATION METHODOLOGY

- In addition to the disclosure of NAV under accounting standards, which does not allow for upwards revaluation of partially completed developments, Aseana provides an estimate of the current project valuation through the calculation of Realisable NAV (RNAV) as follows:

RNAV of Company = Cash at Company + (Net Asset Value of Projects OR Market Value of Projects – Assumed Taxes) + Net Other Assets & Liabilities

- Aseana has valued each project using the following valuation basis for the RNAV calculation:

At Net Asset Value (Cost / Fair Value Basis)	At Market Value (Discounted Cash Flow Method)	At Market Value (Investment / Residual / Comparison Method)

VALUATION METHODOLOGY

The Realisable Net Asset Value of the Company as at 30 September 2013 has been computed by the Company based on the Company's management accounts for the period ended 30 September 2013 and the Market Values of the property portfolio as at 30 June 2013. The market value of the property portfolio is determined on a discounted cash flow basis, comparison method, residual method or investment method on land or properties values by an independent firm of valuers. The market values, excluded any taxes; whether corporate, personal, real property or otherwise, that are payable.

The valuations by independent firm of valuers have been performed in accordance with the International Valuation Standards ("IVS") or in accordance with the Royal Institution of Chartered Surveyor Guidelines ("RICS").

In arriving at the Realisable Net Asset Value of Aseana, the Company have made assumptions on potential taxes deductible from Market Values, where applicable. These may include corporate income tax, real property gains tax or any transactional taxes, where applicable.
